

The Royal Society of Medicine

# Orthopaedic trauma symposium 2023

Tues 21 - Thurs 23 Feb 2023

As well as providing updates on the latest concepts and techniques for established surgeons, this popular course includes dedicated basic science sessions on key trauma topics essential for FRCS Orth candidates and prospective ST3 surgeons. The interactive format includes short lectures, case-based discussions and masterclasses.

## Topics for 2023

- Techniques for young adult proximal femoral fractures
- Avoiding nerve injuries in upper limb trauma and new concepts in tibial plateau trauma
- Algorithm for paediatric femoral and tibial shaft fractures
- Recent advances in polytrauma care and enhancing recovery from multiple trauma
- Strategies for elderly open ankle fractures and update on scaphoid/common hand fractures
- New for 2023 - how to succeed at the 2023 ST3 T&O Interviews

## Faculty includes:

- **Professor Heather Vallier** President OTA 2022 (North America)
- **Professor Peter V Giannoudis** Head Orthopaedic Trauma, Leeds University and Editor of Injury
- **Professor Joseph Dias** Professor Hand Surgery, Leicester University

**\* Early bird pricing until 27 January 2023 \***
